

remember to keep about 3/8 to 1/2 inch at top and bottom

My windscreen didn't quite set onto the top of the nose
Any ideas?

ROLL FRONT GENTLY

Loose tabs
(see pg one)

GLUE TABS ALONG THIS LINE

COWL RING

ENGINE FRONT

AIR INTAKES GO ON BOTTOM

DON'T GLUE THESE FAIRINGS (ALLOW TO PROTRUDE FROM SIDES)

This is good!

Make space for some educational stuff or just old photos..
OR a puppy ad !!

Flipped these 90°
I think the cylinders are a bit too large as shown here

ENGINE RING

Re-arrange better

COWL

This was about 1% too small and had to be forced over the Wasp

remember to nudge the artwork up against the edges (1/8 in)
